

## PRESS INFORMATION – January 2018

New Metropole Colours by Silent Gliss

### A New Colour Palette!

February 2018 will see the launch of the new Metropole colour palette from Silent Gliss. Following a complete review of the range with the help of key customers, 5 new colours have been introduced and 4 removed.

The range now centres around two colour spectrums - hard metallic and softer pastels:

For the metallic range a new **Slate Grey** replaces Steel Grey and **Charcoal** has been added to make the transition from grey to black.

In the pastel range a **Matt White** has been added to offer a more muted option for the popular White. Cream has been replaced by **Ecrú**, a new **Ochre** fits perfectly between Taupe and Sand.

Oak effect and Classic Gold have been discontinued.

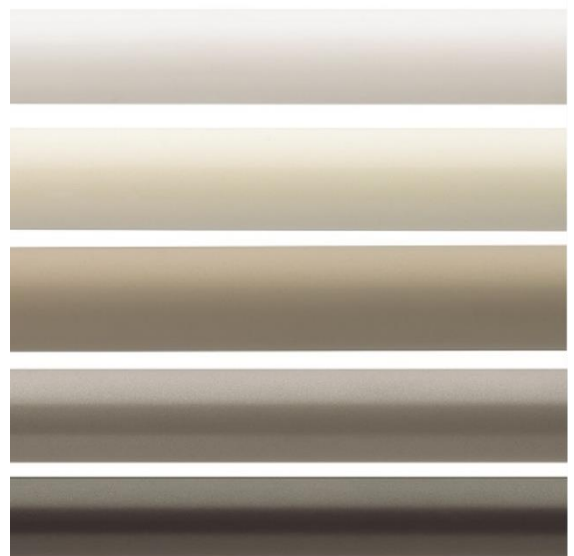

Matt White is based on the best-selling white and is available in 23mm, 30mm and 36mm poles

Ecrú, subtle cream which will blend to any neutral scheme, available in 23mm, 30mm and 50mm poles.

Ochre offers a soft beige with warmth and depth, available in 30mm poles.

Slate Grey, a contemporary metal colour without the cold finish, available in 30mm, 36mm and 50mm poles.

Charcoal, when you want black but not really black! Available in 23mm, 30mm and 36mm poles.

**Note:** Colours in this press release will appear different depending on your screen settings, accurate images are available on our online image bank. For more information and access to images please email [samshervill@silentgliss.co.uk](mailto:samshervill@silentgliss.co.uk)
